Motor Vehicle Fuel Tax (MVFT) & Vehicle-Related Fees (VRF)

Through a number of bond authorizations, Washington issues MVFT & VRF General Obligation Bonds to finance a variety of transportation projects. MVFT & VRF General Obligation Bonds are first payable from MVFT and VRF revenues, and further secured by the full faith and credit of the state. More specifically:

- The bonds are general obligations of the State to which the State pledges its full faith and credit;
- The principal and interest on the Bonds are first payable from the proceeds of state excise taxes on fuel imposed by Chapter 82.38 RCW (MVFT), and vehicle-related fees (VRF) imposed under Title 46 RCW that constitute license fees for motor vehicles required to be used for highway purposes and to be deposited into the Motor Vehicle Fund;
- The proceeds of such excise taxes on fuel and vehicle-related fees are pledged to the payment of the principal and interest on all bonds to which such revenues are pledged;
- The Legislature has agreed to continue to impose such excise taxes on fuel and vehicle-related fees in amount sufficient to pay when due the principal and interest on all bonds to which such revenues are pledged.

In reviewing if a VRF is pledged, the following general definitions are applicable:

“License fee” means a fee collected for the right to use a vehicle on public highways, including vehicle registration fees such as license fees by vehicle type, license fees by weight, license plate fees for motor vehicles, electric vehicle registration and renewal fees, capacity fees, tonnage fees, trip and special permit fees and other fees imposed as a condition of registration and operation of a vehicle on public highways. License fees do not include administrative processing fees, inspection fees, vehicle operator’s license fees, excise taxes imposed in lieu of property taxes, or fees for certificates of ownership of motor vehicles.

“Motor vehicles” definition excludes trailers since they are not self-propelled.

“Used for highway purposes” means it is deposited in the Motor vehicle fund and used for highway purposes within the meaning of Article II, Section 40 of the State Constitution.

Attached Table 1 provides additional detail on the individual vehicle-related fees to be pledged to the Bonds.
