Final forecast of fiscal year 2017 released

OLYMPIA, June 20, 2017 – The Washington State Economic and Revenue Forecast Council released the final forecast of fiscal year 2017, including projections for the 2017-19 and 2019-21 biennia. The General Fund-State (GF-S) revenue forecast has been increased by $81 million for the 2015-17 biennium and increased by $87 million for the 2017-19 biennium. Early estimates for the 2019-2021 estimate are increased by $34 million.

The level of uncertainty in the baseline forecast remains elevated, with downside risks outweighing upside risks. Major threats to the U.S. and Washington economies slow U.S. economic growth, weak labor productivity growth, and international trade concerns.

The economic and revenue forecasts are updated quarterly. The next update to the revenue forecast will be presented on Wednesday, September 20, 2017.

Forecast of GF-S Revenue (probabilities in parenthesis): 2015-17

Baseline (60%): $38.308 billion; $81 million higher than the previous forecast.
